Strange Peace Has Descended On Palestine

Truce Goes Into Effect As
Agreed Upon By Jews
And Arabs

PEACE PARLEY TO
BE OPENED SOON
By W. P. SAPHIR
(U. S. Staff Correspondent)

CAIRO, June 11.—A strange and uneasy peace, broken only by reports of scattered incidents, descended upon battle-torn Palestine today.

The "truce of Bernadotte" went into effect on schedule at 2 a. m. EDT.

An Arab legionnaire was reported killed by Jewish fire in Jerusalem. Details were received of a heavy Jewish air attack on Damascus last night. These contrasted with communiques of recent weeks that told of raging battles and costly casualties.

Truce Began On Time
Amid Arab warnings that any Israeli violation would lead them to ignore the cease-fire entirely, the four-week period of proposed calm began promptly on time.

Bugle fanfares marked cessation of hostilities at major points. Field commanders barked out the cease-fire in Hebrew and the Arabic tongue. Church bells pealed. Children returned to schools and convents.

On the walls of the old city of Jerusalem, Arab machine-gunners and riflemen stood up in their emplacements, facing the Jews openly across 50 yards of no man's land for the first time in weeks.

And there was no exchange of fire.

Pa Newc Observes

Motorists along the New Castle-Ellwood City road were attracted on Thursday evening, by a young couple using a pony to cultivate their garden. The plant ahead here was doing an effective job.

One season seems to have arrived a little ahead of time—the weed cutting season. City employees are already cutting the weeds along the curbs in the city, and state highway workers are cutting down the tall grass and weeds along the highways.

Urban Lackey, well known Pennsylvania railroad man, who resides at Neshannock Falls, tells one about a possum "playing possum." Returning home late the other evening from work, he noticed a possum in the driveway. Seizing a baseball bat, he whacked the possum a couple of good ones over the head, after which the possum stretched out, to all intents and purposes thoroughly dead. The next morning, he told his wife he had dispatched the animal with the pink eyes she had noticed around the house at night. When Mrs. Lackey went to look for it, it was gone. Evidently the possum had come to, and meandered off.

Plan Home Coming At New Bedford

Plans are being formulated for a pleasant home coming period of what was formerly known as the "old Books Woods school gang" at New Bedford on Sunday, June 20, morning and afternoon.

The former school mates will assemble in the morning at 11 o'clock in the Hopewell Presbyterian church and attend the service in a body. At 1 o'clock, a basket picnic is planned in the grove adjacent to the church. The Beacon Sunday school class of the Hopewell church will have charge of the dinner and serve the coffee and other refreshments.

A pleasant time has been arranged and a splendid opportunity will be given to old friends to renew acquaintances.

Congress Racing Toward June 19 Adjournment

By FRANK R. ALLEN
(U. S. Staff Correspondent)

WASHINGTON, June 11.—The House GOP leadership moved today to push through the Senate-passed draft bill next week as Congress, after a day or two of uncertainty, raced toward adjournment June 19.

Speaker Martin (R) Mass., declared that the House "can finish the draft bill in one day and will do so unless Congress decides not to adjourn June 19."

Martin said he is "sure" that the rules committee, which has bottled up the House draft bill for weeks, will turn it loose Monday.

Some To Be Scuttled
The congressional leadership's renewed determination to meet the adjournment deadline even if some major legislation must be scuttled brought these probabilities:

1. The Ohio tax repeal bill will be by-passed. The Senate may attach it as a rider to farm legislation, but odds would be against it with conferees taken from the agriculture committees.

2. The Senate Agriculture committee's laboriously-written long-range farm bill will be scrapped in favor of quick adoption of the House Agriculture Committee's plan for a straight extension of existing farm legislation, including the Steagall amendment.

3. Civil rights legislation will be (Continued on Page Two)

At 9 o'clock the antique museum will open in Trinity Episcopal church basement. At 10 o'clock there will be an inspection of historical displays in the windows of the merchants.

Over the noon hour the excitement will abate long enough for folks to grab a lunch and then at 2 o'clock the veterans' parade will move. All military organizations (Continued on Page Two)

Dike Breaks Near Portland

Columbia River Flood
Waters Are Released
Over Wide Area
(BULLETIN)

PORTLAND, Ore., June 11.—(INS)—The raging Columbia river broke through another dike just north of Portland early today, releasing flood waters over a rich district embracing the city's square mile Columbia airport and other valuable properties.

All residents of the area already had been removed to escape the threatened renewed deluge.

Included in the area swept by the fresh flood waters, besides the airport, are four golf courses, hundreds of homes, numerous fertile truck gardens and the Troutdale aluminum plant.

Desperate efforts were, immediately made to close the new breach. But it was feared the crest-high flood would rip out additional embankments under the pressure of the rising river which had mounted to more than 30 feet at Vancouver, Wash.

Old Refrigerator

Locked Themselves In Discarded
Refrigerator At Philadelphia Home

LLANERCH, Pa., June 11.—(INS)—The small suburban Philadelphia community of Llanerch today mourned the death of two four-year-old youngsters who suffocated when they locked themselves in a discarded refrigerator.

The victims, Nancy Murta and Samuel Mitchell, were found accidentally by another youngster, whose sleeve caught on the handle of the refrigerator and opened the door.

The old box had been placed in the back yard by Nancy's parents, who had recently purchased a new refrigerator.

The door had been placed towards the wall of the Murta house, but somehow, Nancy and Samuel managed to squeeze into the box and the door slammed behind them.

Nancy's mother, Mrs. Frank Murta, told police that the accident apparently occurred while she was discussing with a neighbor the advisability of tying a rope around the refrigerator, to prevent the youngsters from getting into it.

Coal Parley Is Mired Over Welfare Fund

Negotiations On New Soft
Coal Wage Scale Are
Making Little Progress

CONFEREES MEET
THIS AFTERNOON
(BULLETIN)

WASHINGTON, June 11.—(INS)—Negotiations for a new 1948 soft coal wage contract are mired today in a year-old welfare fund dispute which apparently will have to be resolved by Federal Judge T. Alan Goldsborough.

Three days of bargaining by John L. Lewis and bituminous mine owners—under an injunction issued by Goldsborough—have served only to accentuate their long-standing controversy.

Basic Issue

Basic issue is how to spend the thirty-nine million dollars collected through a ten-cents-a-ton coal royalty since July 1, 1947, in a fund to provide pensions and other welfare benefits for Lewis' 400,000 soft coal miners.

The problem will be argued before Judge Goldsborough June 19, barring an earlier agreement between Lewis and the operators.

Meantime, the welfare fund dis-

day School Association

NAMED SUCCESSOR

Coming as a surprise to the delegates to the one hundred tenth Lawrence County Sabbath School convention held in Ellwood City, Thursday, Robert M. Strickler, Jr., resigned as president of the organization after more than 20 years of faithful service given to the organization.

It was with regret that Mr. Strickler's resignation was accepted, with many of the convention leaders offering words of tribute for his successful work of leadership down through the years. A rising vote of thanks was given him by the audience for his unceasing efforts and as a parting tribute from the assemblage, was presented with a beautiful wrist watch by Rev. Harry Johnson of Edinburg.

Hennon Is Named
L. Butler Hennon of Wampum, was unanimously elected to the office of president and assumed his office in the evening after the other elected officers were installed by Rev. H. LeRoy Brininger, officer of the Pennsylvania State Sabbath School Association.

Retiring also from his office as secretary was Mrs. Howard F. Magill who gave unstintingly of her time and effort for a number of commendable years given to her from the platform and from the convention floor.

The convention, using the theme "Life In Christ", got under way at 9:15 a. m. in the First Presbyterian church of Ellwood City. Rev. Oliver Stang, pastor of the host church presided over the devotion, aided by Girl and Boy Scouts. Appointment of committees preceded the welcome address by Frank Wiley, president of the Ellwood City district.

The closing address of the morning was by Rev. Ernest V. May, pastor of the First Methodist church of Ellwood City.

Afternoon Session
Following the noon recess, the convention reconvened at 1 p. m. Rev. T. J. Yoder of New Castle gave the report of the resolutions committee. "The Challenge of Christ" was the theme of Rev. H. A. Redmond of Mahoningtown, who was followed by Miss Anna Dadds of New Castle who spoke on "Temperance Truths". Heard during the afternoon also was Byron W. Kinlaw, assistant pastor of the Baptist Temple of Youngstown, who spoke aptly on "The Child-Centered Church School".

H. L. Marvin of New Castle gave the budget figures after which Mr. (Continued on Page Two)

Woman Seeking \$10,000 Husband To Return Home

Trip To Florida Falls To Develop
Wedding; Man Cashes In
On Publicity

DAYTONA BEACH, Fla., June 11.—(INS)—Mrs. Dorothy Lawlor is open for marriage proposals again—from men who have \$10,000 and can show it "cash on the line".

The 28-year-old divorcee, mother of two children, called an abrupt halt yesterday to her want-ad romance with Daytona Beach bar owner Danny Wicker and said she was preparing to return to New York.

She said all she had received from Danny was a plane ride to Florida, and suite in a fashionable hotel and \$10.

The husband-hunting blonde ex-hatcheck girl insisted she spent the \$10 buying meals for herself and Danny.

Danny explained the end of the romance with the comment:

"We were both too nervous to make a happy marriage."

Mrs. Lawlor told it differently and let no doubt that she was disappointed with the way the affair went.

She said the whole thing appeared to be a "publicity stunt" for Danny's tavern—which did a land-office business on the strength of the highly-publicized Lawlor-Wicker marital dealings.

Wampum Ready For Horse Show

Annual Rotary Show Is
Scheduled For Tonight
And Saturday

Wampum is the headquarters of the "horsey" set today and tomorrow. The annual Rotary horse show is scheduled for tonight at 8, Saturday afternoon at 2:30 and Saturday night at 8.

Over 100 fine horses are quartered in the barns of the Pleasant Valley farm today. Stalls that can boast of royal equine blood for generations, steeds that require and get the care usually reserved for human beings.

The Wampum horse show is known throughout Pennsylvania and Ohio as one of the best. The entries are always of the best, the judging is done by competent men and the setting at Pleasant Valley farm is in itself worth a trip down.

New Castle is always well represented at the show. Some entries are from New Castle but hundreds of citizens go down each year to see the spectacle.

The show is the annual event of the Wampum Rotary club. The net proceeds from it go to various charities and in past years the Wampum Rotarians have done much good with the proceeds from this pleasant affair.

FEAR LOSS OF LIFE
WILL BE OVER 100
(BULLETIN)

COPENHAGEN, June 11.—(INS)—One hundred and fifty persons were reported killed today when a Danish coastal steamer laden with vacationists struck a mine off the east Jutland coast and sank.

Divers who probed into the torn hull of the SS Koebenhavn off Aalborg reported that many bodies are trapped in the wreckage.

COPENHAGEN, June 11.—(INS)—A ship laden with vacation-bound Danes met disaster today off the east Jutland coast where the vessel sank after hitting a war-time mine which caused numerous deaths.

Five bodies, three of them those of women, already have been recovered, and officials of the United Shipping Company, owners of the steamer, said that 117 passengers and crew members remain missing.

They said that all persons aboard totaled 350.

May Be Biggest Disaster
Accounts of the tragedy indicated that the sinking may prove the biggest disaster in Danish maritime history.

Several of the 400 passengers aboard the 1,600-ton coastal steamer Koebenhavn were reported killed outright by the mine blast which injured many others when the mine exploded.

Detonation of the mine amidst ships almost cut the vessel in two. It sank almost immediately in shallow water about 20 miles off the coast of Aalborg province in Kattegat Strait. Only the smoke stack and masts were reported above water after the vessel heeled over and went down.

Ships In Short Time
The crippled vessel sank within eight to 10 minutes after the mine blast, allowing little opportunity (Continued on Page Two)

Truman To Fly Over Flood Zone

Day's Schedule Calls For
Flight Over Northwest
Devastated Zone

By ROBERT G. NIXON
(U. S. Staff Correspondent)

OLYMPIA, Wash., June 11.—President Truman will fly over the flood devastated areas of the Pacific Northwest today to inspect damage wrought by a rampaging major river watershed which he insists Congress should give the nation power to control.

The Chief Executive, having delivered a succession of new verbal onslaughts on a "do-nothing" Congress, leaves Olympia at 7:30 a. m. (PDT) to fly over the flood area to Salem, Ore.

Arriving in Salem at 11 a. m. (PDT), he will drive to Portland where at 1 p. m. (PDT) he will make another address in a continuation of his red-hot pre-convention campaign for reelection.

At Portland the President also will confer with the heads of government agencies, in the northwest to aid flood sufferers, on (Continued on Page Two)

In View Of News Of The World

By J. C. Ostrander, INS Foreign Director

The eyes of the world turned to Athens Thursday and for a brief while the ancient Greek capital recovered some of its glory and splendor even though a destructive and bloody civil war is raging on its outskirts.

For despite all its wartime austerity, poverty and need, the city beneath the Acropolis could help but reflect at least a portion of the glitter that surrounded the wedding of Romania's exiled King Michael to Princess Anne of Bourbon-Parma.

Michael, a strong-willed young man, made it clear that this is no hasty marriage climaxing a moribund romance of the type that distinguished the lives of his father, ex-King Carol and his brother Prince Nicholas.

He renounced his abdication and stood on his "rights" as king to be married by Greek Orthodox rites although Princess Anne is a Roman Catholic.

Becomes Queen
And the protocol of the wedding reads that as soon as the elaborate ceremonies were completed, Anne automatically became Queen Anne of Romania, a consort without throne or scepter but non the less full-blown royalty in its accepted meaning.

Ostensibly, the wedding was an entirely private affair. There were no great peals of church bells, no bands, no glittering processions, no gilded coaches or caparisoned horses.

The ceremony took place in a private chapel of the royal palace in Athens and after a wedding luncheon Michael and his pretty princess left quietly for King Paul's summer villa at Tatoi in the countryside which he has loaned them for a honeymoon.

But despite every effort to keep things as simple as possible in contrast to the parent of Princess Elizabeth's wedding to the Duke of Edinburgh in London a few months ago, there was a thrill of excitement in Athens' sombre streets.

The Athenians are romantic people and Greek Orthodox weddings are colorful indeed.

Orthodox rites call for many diverse ceremonies, especially in the case of royalty. The treasures of the ruling house were on display together with ancient byzantine Bibles a golden bowl with sweet red wine from which the bride and bridegroom sip, while there was an elaborate exchange of rings and ceremonial dancing.

The Parent Problem

By Garry C. Myers, Ph. D.

USE YOUR LOCAL LIBRARY

Far fewer than half the families of the United States have access to a public library. Of those who have, an appallingly small proportion of parents ever use or visit their local library. How much smaller the number of parents who go with the child under six or seven to the public library.

Over a period of years I have, occasionally, visited the children's division of the great central library of New York City. On the average, I have not seen there a dozen parents with their children at any one time. On a few occasions I have seen a few groups of elementary school children there with their teachers.

More Books Borrowed
According to some studies by librarians there has been in recent years an appreciable increase in the number of books borrowed from the public libraries by children of the upper elementary grades and high school. The chief reason for this increase has been the reading assignments made by teachers. That there has been an increase of voluntary reading of library books for pleasure is not apparent. The chances are there has been a drop, in spite of the good work our schools have been doing to stimulate children to read good books for fun.

Yet in the public libraries of the larger and smaller cities are ever so many of the very best books, newer books and books which have stood the test of time, for reading to the preschool child for the older child to read. Besides, there are neighborhood branches of these public libraries, many of which are used more, fortunately, by parents and children than the larger central libraries.

But when one considers the small proportion of children who use the many free books of our public libraries one must wonder why. These books usually are free. I guess the chief reason is the indifference of parents to the best education of their children. If as many parents went with the child under six or seven to the library as the number who go with this child to the movies, there wouldn't be room or books enough in these libraries for one-twentieth of them.

Fellow Parents of Young Children: Go often with your child as young as three or four to the library. Show him some of the books suitable for him to look at and listen to. Borrow and take home a few that he likes best and read to him from them at home. Go back with your child repeatedly. The librarian will be glad to help you know more about the best books for the young child. Then when you buy books for him you can buy them more intelligently.

Library Card

Take out a library card for the child, even though he is only three. Going to the library with him often, you can help build in him the love of good books and reading and cultivate in him the library habit for later years.

My bulletin, "Books From Which to Read to Baby and Young Child," and "Books for Children 6-12 to Read," may be had in a stamped envelope by writing me at 235 East 45th Street, New York, N. Y. Both lists contain some books tested with care as well as some more recent bestsellers. The second list has been revised with the help of Miss Margaret Clark, head of the Lewis Carroll Room of the Cleveland Public Library.

A nutritionist tells us that animals are better fed than folks. Perhaps that is because too many folks refuse to eat what they should while the animals eat what is set before them and ask no questions.—Somerset, Pa., American.

From Me To You

By MESEALL

History . . . of course we are making it today . . . but the history that is popular right now concerns the last 150 years in the life of New Castle . . . what went on back in the good old days. How did the people live and what did they do for a living. This history is now in the process of being made public . . . yesterday we asked that those who had photos of yesterday to lend them to the Sesqui Publication Committee . . . now we have another request of those who have articles that were in use in yesterday.

It is desired to have a historical museum during the week of celebration. Ken Lindersmith of Castle Buick has offered his showroom for the showing. Now if anyone has something that is interesting . . . it is desired that they contact the Sesqui Headquarters and tell what they have. We know that some folks have old horse drawn vehicles, old high wheel bicycles . . . and we know of two old fashioned autos . . . One is a Ford and the other a Buick. We hope that these two pieces of equipment will be offered for display during the week of the celebration. All articles loaned will be cared for with great respect . . . and returned in the same condition as received.

We know there are quite a few items that are very interesting . . . and a very fine show could be set up if you people who have the items feel like cooperating. If you can't get down to the Sesqui Headquarters just give 'em a call . . . the number is 7458.

We learned last evening that the first iron works in New Castle . . . or rather the first iron to be manufactured in this community was done by John Carlyle Stewart . . . yes, that's right, the man who founded the city. He was a school teacher here also . . . a very versatile individual it seems. As you sit watching the gala show at Tazewell Stadium, your thoughts will be forced back over the years . . . and the things that you have wondered about will be clear . . . at least that is the hope of the pageant committee.

BRAVE SILENCE

When the communists took over in Czechoslovakia, they did so thorough a job that the only way to protest was by silence. The silence of President Benes was a protest and a report. The silence of Foreign Minister Masaryk, since his violent death, echoes from the tomb. And now their silence is powerfully reinforced by the silence of countless common citizens of Czechoslovakia.

The communist coup started less than three months before the scheduled elections. By the time the voting took place there was only one ticket. Voters could vote for it, or they could cast blank ballots.

It was dangerous to cast a blank ballot. There was no secrecy at the polls. Government watchers stood by, presumably to mark down those who made silent protest for later retaliation. Yet the government has conceded that 800,000 blank ballots were cast in the election, or about one in nine.

Actually, the number must have been considerably greater. During the counting in Prague, the ministry of the interior suddenly stepped in and took over the counting, in secret. In the early counting, it was reported that blank ballots were running as high as 25 or 30 per cent.

Even the 11 per cent figure officially admitted is impressive. Voters who fired blanks at the well-armed communists knew their silent protest "couldn't do any good" and put them in serious danger. But they went on record. Under similar circumstances, few nations would score even 11 per cent.

SAFETY ON THE FARM

Last year 19,500 persons lost their lives in farm accidents in the United States. It is a common belief among city folk that the hazards of daily life are confined to the cities, and in the industrial sections where occupational accidents are more numerous. It is presumed rural life is safer.

As revealed in figures for 1947, the fact is farm accidents are out of proportion to the ratio between rural and total population.

The National Safety Council, the recognized authority on such matters, reports that progress has been made in reducing the number of farm accidents through work of 4-H clubs and similar organizations. The number of such accidents was reduced by 20,000 in 1947 over the previous year, for which credit is given to these organizations. The work is to be continued and extended in an effort to make farm life safer.

In addition to the 19,500 killed, nearly 2,000,000 others were injured on the nation's farms last year. That the number has been reduced in the face of increasing mechanization is encouraging.

NOT JESSE JAMES

When a centenarian—that is, he says he's 100 years old—appeared in Lawton, Okla., recently with "proof" that he is Jesse James, the bandit killed in Missouri more than 60 years ago, and signed an affidavit to that effect, a newspaper editor in the town went all out on the story and almost convinced himself.

The story this character—he is the thirteenth man to make his appearance with similar claims—told was that another man who looked like Jesse was killed and buried as the bandit leader, while Jesse went underground.

Bob McWhorter, 88, who knew the real Jesse—he says Jesse stole his horse when the bandit went to Northfield, Minn., to rob a bank—wasn't convinced. The reincarnated Jesse wouldn't discuss bank holdups that Bob wanted to talk about.

Now comes Mrs. Jesse James Jr., wife of the original Jesse's son, who says the Oklahoma character is an imposter. She says the family ignored similar claims by other in the past, but intimidated it was time to call a halt. Jesse Jr., ill in a Long Beach, Calif., hospital, remembers the shooting of his father vividly, according to his wife. He was seven years old and was the first to reach his father's body, she said.

UNCONFIRMED APPOINTMENTS

Evidently this session of Congress is to adjourn with a great many of President Truman's appointments lacking confirmation. As of May 31, the Senate had failed to take action on 1034 (32 per cent) of the 3220 civilian nominations this year. Most of the unconfirmed appointees were named for postmasterships.

The Republican majority in Congress is frank about its reasons. It says that Democratic administrations have appointed their men for 16 long years; that a Republican administration will begin appointing its men in 1949; and that many of the posts President Truman now wants to fill should be kept open for Republican appointees next year.

The GOP leaders insist this is not the discredited spoils system, which would mean turning out government servants already in office. And they insist also that no essential government activity will be hindered by their non-confirmation policy, because the President can always give recess appointments, good until Congress reconvenes.

Little Progress Made In Greece

WASHINGTON, June 11.—Rumors persist of an impending change in the government of Greece that may well provide new embarrassments for the United States in its uneasy role of protector. Today, one year after the start of the U. S. program, progress must be measured with a microscope.

The achievement is almost wholly a negative one. Greece has not gone Communist and the government in Athens is not an outright dictatorship.

Not Enough To Halt Reds
But it is not enough, as Greece abundantly illustrates, to have stopped communism. Such a negative approach will not win over Europe. It is not enough to stop communism if the alternative is support of something that looks very much like Fascism.

We will grant that Greece is a riddle within a riddle. We will also grant that Aid Administrator Dwight Griswold did his best to broaden the Athens government, over the opposition of career diplomats and the former ambassador, Lincoln McVeigh.

Griswold used his influence to have the 87-year-old liberal leader, Themistocles Sophoulis, made prime minister. Sophoulis, a man of integrity and courage, found himself surrounded by members of the Royalist Populist party in key positions. He has often said privately that he felt himself a captive with little power to make the changes that would win greater

One Man's Opinion

By Walker Kiernan

The president's charge of inactivity in Congress brought quick action. The House passed 136 bills in three hours and even knew what some of them were.

Congress passed an anti-nematode bill and three committees for "civil rights for nematodes" were organized before anyone learned that nematodes are potato worms.

Plans for a protest march on Washington were then suspended until the nematodes can prove they can deliver the vote.

But action on the nematode peril was just in time. We are faced with another potato surplus and there was danger the nematodes might have the government to destroying the crop.

Under the law the government keeps the price of potatoes up while bawling the fact that food prices do not come down. This is what is known as the "ever-normal-lunacy" policy.

Just Folks

THE GOOD LAND
Land of plenty, land of homes;
Land of childhood free from care;
Land, no matter where he roams,
Man encounters more despair.
Land of laughter and of song,
Land of church doors open wide;
Notwithstanding all that's wrong,
Land of dignity and pride.

Land of happy motherhood;
Land of countless evening prayers,
Land of everything that's good;
Land that all ill-fortune shares,
Land where none in terror shrinks
'Neath the threats of tyrants' might;
Land where every one who thinks
Has the right to speak and write.

Land, the Lord has richly blessed;
Fertile field and fruitful tree,
And of all joys, this the best:
Land of precious liberty!
Those who fear the light of day
And with whispering tongues
Deceive,
Father of us all, I pray,
Let no son of ours believe.

BIBLE THOUGHT

My son, despise not the chastening of the Lord; neither be weary of His correction; for whom the Lord loveth He correcteth; even as a father the son in whom he delighteth.—Proverbs 3:11, 12.

About This And That

(By Holmes Alexander)

WASHINGTON, D. C., June 11.—Senator Vandenberg's presidential chances were rudely shaken by the House's two-billion-dollar bite into the Marshall Plan funds. If the House action represents an outburst of isolationist sentiment, the Michigan Senator will still be a Michigan Senator next inauguration day.

But viewed from the press gallery, the House revolt looked like a bad case of vacationitis. End-of-term sessions always find the members restless and rebellious. In this instance the representatives were stirred to illogical action by a really forceful speech from Congressman Taber, chairman of the Appropriations Committee. Taber very cleverly avoided a direct attack upon the diplomatic and humanitarian aspects of the Marshall Plan.

Instead, he let fly at the necessarily loose arithmetic by which the State Department arrived at the asked-for figures. He also flogged the dead carcass of New Dealism, saying that the Marshall Plan was full-brother to the do-gooders and parasites who thrived on government spending under Mr. Roosevelt. Earlier this year these same arguments failed to stop passage of the Foreign Aid program. But last week they prevailed in the House by a coalition of debate-weary Republicans, inveterate malcontents, economy-minded candidates for reelection and foreigner-haters.

A suspicion also lurks that Speaker Martin did not try very hard to keep the House in line with the Republican position on bipartisan foreign policy. If the GOP weakens its stand on internationalism, Martin and not Vandenberg would wear the dark horse saddle at the Republican Convention.

Another test of GOP foreign policy is shaping up in congressional reaction to the Vandenberg-Eaton resolutions to revise the United Nations Charter. Great Britain, not Russia, may be the deciding factor here. Not for years has anti-British feeling run so high in Capitol Hill. Part of this can be blamed on Britain's behavior in the Palestine crisis. But a large part grows out of reports from England that Americans there are unpopular both socially and politically. For these reasons Congress will be slow to urge modification of the Security Council veto, as recommended by the Vandenberg-Eaton measures. With Britain consistently supporting us in the Council, the U. S. has had no use for the veto. But if Britain started siding against us, the voting of the Big Five would be too close for comfort. France, a two-time user of the veto and a frail reed at best, would then hold the balance of power between the U. S. and Russia.

Considered opinion in Congress about the Voice of America fiasco is that the South American broadcasts were more silly than subversive. But the silliness was not all on one side. The pompous indignation of certain U. S. Senators was almost as farcical as the broadcasts they were investigating. Apologists for the Voice suggested that one way to humanize bygone American statesmen was to show their faults and foibles. Senators Bricker and Hickenlooper, two rather humorless men, came out strongly against the kidding of American statesmen, either the quick or the dead.

Meanwhile it appears that better American voices than the Voice of America will be heard in foreign parts this summer. State Department plans call for the exchange of 132 teachers and cultural leaders with Europe and 100 of the same with South America. If the plans work out, spokesmen for Americanism will be Walt Whitman, Mark Twain, Ralph W. Emerson and perhaps even the beloved Will Rogers. The feeling is that these men can talk about hypocrisy in New England and sin in Texas without making fools of themselves and of their country.

Another propaganda medium, the movie called "The Iron Curtain," caused an unexpected reaction in Washington. During the film's first week run, Capitol Theatre audiences were not at all demonstrative. Carter Barron, the manager, told me that he took particular note of persons leaving the theater and found them "less talkative and more meditative than usual." But during the second week's showing, schools were letting out and school children were coming to the afternoon shows. Viewing the film as a melodrama instead of a message, the kids jeered the Soviet villains and whooped it up noisily for the heroic Canadian police.

JOB'S UPON A TIME

Alan Young, now back on the screen from a stint in radio, started a business career as assistant bookkeeper to a printer and sign painter. It didn't last long and Alan tried night club entertaining, talking, dancing, singing and radio. He did some stage acting, too, in Toronto with Judith Evelyn in "Angel Street." Radio took him to New York and that was the way he got his first movie job in "Margie," for which he wrote the script.

When Jean Arthur first left high school she drifted into modeling, although she had ambitions to become a dancer. Next she had a brief stint in the theater and in 1924 Hollywood claimed her. Two reel comedies and westerns were her first films, then she won a lead with Richard Dix, in 1928, and she was established, although she has an occasional interlude in a Broadway production. Jean was born in New York and is married to Producer Frank J. Ross, Jr. She collects fine china, likes books and symphonic music.

Approval of a federal anti-lynching law by a House subcommittee has provoked new and more militant outbursts from the Southern wing of the so-called Democratic Party. The most practical suggestion for vengeance on Mr. Truman is a proposal that the name of the Democratic presidential candidate be left off the ballot in the revolving States, thus relieving the presidential electors of any legal obligation to vote for the nominee—who certainly will be Mr. Truman.

Analysts generally lean to the opinion that failure of the Southern electors to vote for Mr. Truman would throw the contest into the House of Representatives. The Republicans now hold a substantial majority in the House. The vote on election of a President, however, is by States, each State having one vote. Thus the Congressional delegations from the various States would make their decision by a majority vote as to the casting of the State's vote. A delegation with a Democratic majority would vote for a Democrat, and a delegation with a Republican majority would vote for a Republican.

MIS OWN WAY

It's a wonder that children get along as well as they do.

Mom studies a long time to be a teacher or an organist or a nurse or a bookkeeper or a typist or a missionary.

Dad takes a lot of training to be a machinist or a druggist or a banker or a dentist or a preacher or musician. Then there's Mom get married and Butch arrives in a year or two. They have not had much training about bringing up children.

Pretty soon Butch begins to have a mind of his own. Dad and Mom have to learn as they go. Sometimes they have a hard time. Sometimes Butch has troubles, too.

The schools do not have many courses on child training. Perhaps it is hard to find teachers. Not enough old bachelors to go around.

Palms and white gladioli decorated the altar. Rev. Andrew Sabak officiated at the double ring ceremony, assisted by the St. John's Choir of Sharon, under the direction of Paul Tkach.

Given in marriage by the best man, Joseph Walliga of Sharon, the bride was attractive in a gown of white tulle with white pearl trim. astounding statement that he was "surprised that the excesses have not been greater." In an editorial footnote the Herald Tribune expresses its "complete confidence in Mr. Bigart's accuracy of observation and fidelity to the truth."

Should the U. S. be put in the position of backing a thinly disguised dictatorship in Greece, the evil consequences would extend far beyond that sick nation. The European recovery program, on which Greece depends, must be renewed in the coming winter. Isola-

tionists would love to cite blundering in Greece to prove the program should be shut off.

Griswold and the newly appointed U. S. ambassador to Greece, Henry F. Grady, will have to make this clear to the stubborn dead-enders in Athens. Above all, they must disabuse them of the idea that they can do what they please since in their view the U. S. needs Greece more than Greece needs the U. S.

Moulders Meeting On Monday Night

According to John Slizeski, corresponding secretary of International Moulders and Foundrymen Workers Union No. 398, the meeting to be held for discussion of the negotiations on the United Engineering and Foundry company will take place at the meeting place in Trades and Labor Assembly hall on Monday evening at 8 o'clock. In an item in The News Thursday, it was incorrectly stated that the meeting was to be Sunday.

The U. S. has the largest oyster production in the world.

Inventions Are Given Attention By Babson

By ROGER W. BABSON
(Copyright, 1948, Publishers Financial Editors, Inc.)

WASHINGTON, D. C., June 11.—Anyone who is pessimistic as to the future of sound American stocks, should spend a day at the Patent Office in Washington and see what is going on. Last month there were about 2500 new patents issued, some of them very revolutionary.

Roger W. Babson

It is true that many things tend to make one pessimistic today, especially the way labor leaders are acting during these critical periods. With all the rest of the world in ferment, it seems as if our labor leaders would forget their selfish shortsighted ambitions and unite for a stronger and better U. S. Not only are these labor leaders curtailing production here at home, but they encourage our enemies abroad. Remember that our newspapers are read in Moscow.

Bankers and investors should also be less selfish and think more of the country's good as a whole. Of these 2500 patents issued last month probably half of them cannot now be used because of lack of capital to manufacture and sell them. As a rule, I am not in favor of government mixing up with business, but certainly some inventors of good products should in some way be entitled to financial help. Then we must not forget the important patents which big companies buy up to smother for fear of competition. This should be prevented.

Selecting Investments

I study patent assignments, that is, patents that have been bought by large companies from the inventors. This list shows what companies are progressing and are spending sufficient sums on research work; also are watching the Patent Office for new inventions which they can use. I am not advising investors to buy the stock of any "fly-by-night" new outfit, but when selecting investments, it is well to buy stocks of companies which are leaders in research work. Among these I mention, merely as illustrations: General Electric & Westinghouse, Union Carbide & Carbon Co., Bendix Aviation, American Cyanamid, Du Pont, Standard of New Jersey, Goodrich and Goodyear.

In scanning over these patents, I noticed that the chemical companies are taking out many new ones; but all classifications are represented. Inventions connected with electronics—like the new kitchen stoves which will cook an entire meal in five minutes—appear to lead. In fact, I believe that the time necessary for everything from housework to education will greatly be reduced. This will permit more people to enjoy these important features of life. Then there are coming most revolutionary pharmaceutical products which could easily make our grandchildren live to be 100 years of age if they have good habits.

Opportunity For Churches
Last week I was at a church convention where I heard appeals for funds for missionary work. Now I believe in foreign missions of the right kind, such as the great agricultural mission which Sam Higginbottom, recent general moderator of Presbyterian Churches in America, founded in India. He realizes that a man's body and soul is one unit and both must be helped together. The medical and educational missions are also doing good work.

If the churches of this country are, however, really serious in helping the poverty-stricken and disease-infected millions of foreign countries, they will help such research work as is trying to increase production in these foreign lands. All these poverty-stricken countries have great undeveloped natural resources and a tremendous supply of available labor, but they lack the capital and know-how.

I have just been told that 190,000,000 people are suffering from filariasis, which causes swelling of certain tissues; about 20,000,000 are suffering from blindness, and 120,000,000 are suffering from schistosomiasis, which attacks the liver and intestines. Hookworm, which could largely be eliminated with a proper diet, is afflicting 500,000,000 people in the world today.

All of the above troubles could be eliminated if the churches would make it their business. I believe in the United Nations and all the work that is being done for world peace, but none of it will amount to much until we offer a fair standard of living for all peoples of the world.

They Say

SPOKANE, Wash. — President Truman... "The present Congress don't believe in the west. They don't think anything ought to be done for the west. The 80th Congress is the worst in the nation's history."

WASHINGTON—Rep. Myers (D) Pa. "Harry Truman had the intestinal fortitude to recommend the draft bill. Let us have the intestinal fortitude to pass it and not require that president to push the button about a month before election."

NEW YORK — Jamal El Husseini, spokesman for the Palestine Arabs... "Under the UN month-long truce the Jews are the gainers and the Arabs are the losers. There should be a plebiscite where citizens—irrespective of race or religion—will express their desire for a future government."

WASHINGTON—Secretary Marshall... "The U. S. favors a united Germany but has consistently stressed that political unity must proceed from economic unity and that both must be based on recognition of individual liberties."

A locomotive gives forth four separate puffs for every revolution of its driving wheel. The cause of these is the rapid sending out of waste steam from the smoke-stack. A locomotive with average sized wheel and going about 50 miles an hour gives out about 800 puffs a minute, but if there are more than 18 puffs a second, the human ear cannot distinguish them.

WINNING CANDIDATE
DODGE CITY, Kans.—(INS)—John B. Martin thinks he holds something of a record for having won election to public office. He just has started his 21st consecutive term as Ford county assessor.

YOUNGSTOWN, O., June 11.—It is going to cost Youngstowners more to ride buses of the Youngstown Municipal Railway Company after Sunday, June 13.

Green Pastures Theme Of Tour By Conservation Group

Visits Being Made To Outstanding
Farms In State By Conserva-
tion Committees

Agriculture Conservation Com-
mittees of Pennsylvania are mak-
ing an education tour of some of
the state's best pastures in prepa-
ration for a state-wide Green Pas-
tures contest, now being launched
by the Pennsylvania Production
and Marketing committee. The
purpose of the contest is to arouse
interest in the establishment of
permanent pastures for the con-
servation of soil and the produc-
tion of low cost forage for the
dairy herds of the state.
New pasture seeding will be
made at the subject of observation
at the farms of H. E. Harshbarger
of McVeytown, and Russell Cun-
fer, of Leighton, where demon-
strations were staged in the past eight
months by the P.M.C. Both Harsh-
barger and Cunfer are veterans
taking GI "on-the-farm" training.
The conference tour started
Thursday at the U. S. Department
of Agriculture Pasture Research
Laboratory, and the Pennsylvania
Agriculture Experiment Station at
State College by one group headed
by Clyde A. Zehner, chairman of

the P.M.C. The second group as-
sembled at the Milk Processing
Plant of the Lehigh Valley Co-
operative Farmers at Allentown
this morning, and was led by John
A. Smith, secretary of the P.M.C.
Both groups will meet in the audi-
torium of Bucknell university this
evening for a general conference
on pasture improvement. They will
remain there overnight. Other
pastures will be visited Friday,
and a large lime-producing plant
will also be seen at Winfield,
Union county.

All the members of the Law-
rence County Pennsylvania Pro-
duction and Marketing committee
are attending the conference-tour;
they are Dorris L. Fulkman, chair-
man, W. Carl Hileman, and Frank
Forbes. Community committe-
men attending the conference are
Wm. Rotgaber, Fred Lusk, and
George Young from Wilkes-Barre;
and Hickory townships; Fred Mar-
tin, Dominick Devite, and Albert
C. Watt of Mahoning-Neshannock
Twp.; Walter Hopper and W. J.
McKee of North Beaver-Union
Twp.; Paul McClenahan of Pul-
aski Twp.; Fred Holman of Plain-
grove Twp.; Clair Steffler of Perry
Twp.; Francis Reno of Shenango
Twp.; and Chester Hogue and Nor-
man Houk of Slippery Rock Twp.

Community Health Activities Seen Key To Prosperity

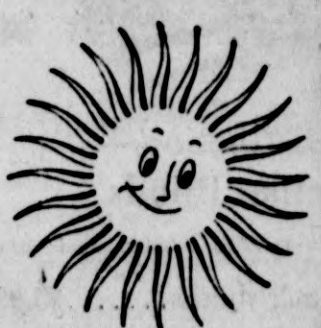

HARRISBURG, June 11.—(INS)—Healthy community activities are regarded today by the state plan-
ning board as the key to the future
prosperity of the United States.
Local governments no longer can
trust to federal aid for their well-
fare due to the heavy wartime debt
shouldered by the government at
Washington, the board explained.
"This is a healthy change if the
challenge is accepted," it declared.
The power of our country stems
solely from the enterprise, the am-
bition, and the ideals of the tens
of thousands of American commu-
nities.
The need for community self-
sufficiency was particularly great
in Pennsylvania, according to the
board.
"The future of Pennsylvania will
be determined by the action of its
communities over the next half
dozen years," it predicted.
"If America is to go on from
here to realize all the possibilities
of the leisure, the plenty and the
culture and arts which mark a
great civilization, it can only be
done through the communities
which make up the grand total of
our national life.
"Community action in Pennsylv-

vania to increase opportunities for
better living, for increased earning
power and for healthy recreation
was never more urgently needed
than at the present hour."

astonishing statement that he was surprised that the excesses have not been greater." In an editorial footnote the Herald Tribune expresses its "complete confidence in Mr. Bigart's accuracy of observation and fidelity to the truth."

Should the U. S. be put in the position of backing a thinly disguised dictatorship in Greece, the evil consequences would extend far beyond that sick nation. The European recovery program, on which Greece depends, must be renewed in the coming winter. Isola-

tionists would love to cite blundering in Greece to prove the program should be shut off.

Grissold and the newly appointed U. S. ambassador to Greece, Henry F. Grady, will have to make this clear to the stubborn dead-enders in Athens. Above all, they must disabuse them of the idea that they can do what they please since in their view the U. S. needs Greece more than Greece needs the U. S.

Moulders Meeting On Monday Night

According to John Slizski, corresponding secretary of International Moulders and Foundrymen Workers Union No. 398, the meeting is to be held for discussion of the negotiations on the United Engineering and Foundry company will take place at the meeting place in Trades and Labor Assembly hall on Monday evening at 8 o'clock. In an item in The News Thursday, it was incorrectly stated that the meeting was to be Sunday.

The U. S. has the largest oyster production in the world.

Inventions Are Given Attention By Babson

By ROGER W. BABSON
(Copyright, 1948, Publishers Financial Bureau, Inc.)

WASHINGTON, D. C., June 11.—Anyone who is pessimistic as to the future of sound American stocks, should spend a day at the Patent Office in Washington and see what is going on. Last month there were about 2500 new patents issued, some of them very revolutionary.

Roger W. Babson

It is true that many things tend to make one pessimistic today, especially the way labor leaders are acting during these critical periods. With all the rest of the world in ferment, it seems as if our labor leaders would forget their selfish shortsighted ambitions and unite for a stronger and better U. S. Not only are these labor leaders curtailing production here at home, but they encourage our enemies abroad. Remember that our newspapers are read in Moscow.

Hankers and investors should also be less selfish and think more of the country's good as a whole. Of these 2500 patents issued last month probably half of them cannot now be used because of lack of capital to manufacture and sell them. As a rule, I am not in favor of government mixing up with business, but certainly some inventors of good products should in some way be entitled to financial help. Then we must not forget the important patents which big companies buy up to smother for fear of competition. This should be prevented.

Selecting Investments

I study patent assignments, that is, patents that have been bought by large companies from the inventors. This list shows what companies are progressing and are spending sufficient sums on research work; also are watching the Patent Office for new inventions which they can use. I am not advising investors to buy the stock of any "fly-by-night" new outfit, but when selecting investments, it is well to buy stocks of companies which are leaders in research work. Among these I mention, Electric & Westinghouse, Union Carbide & Carbon Co., Bendix Aviation, American Cyanamid, Du Pont, Standard of New Jersey, Goodrich and Goodyear.

In scanning over these patents, I noticed that the chemical companies are taking out many new ones; but all classifications are represented. Inventions connected with electronics—like the new kitchen stoves which will cook an entire meal in five minutes—seem to lead. In fact, I believe that the time necessary for everything from housework to education will greatly be reduced. This will permit more people to enjoy these important features of life. Then there are coming most revolutionary pharmaceutical products which could easily make our grandchildren live to be 100 years of age if they have good habits.

Opportunity For Churches. Last week I was at a church convention where I heard appeals for funds for missionary work. Now I believe in foreign missions of the right kind, such as the great agricultural mission which Sam Higginbottom, recent general moderator of Presbyterian Churches in America, founded in India. He realizes that a man's body and soul is one unit and both must be helped together. The medical and educational missions are also doing good work.

If the churches of this country are, however, really serious in helping the poverty-stricken and disease-infected millions of foreign countries, they will help such research work as is trying to increase production in these foreign lands. All these poverty-stricken countries have great undeveloped natural resources and a tremendous supply of available labor, but they lack the capital and know-how.

I have just been told that 190,000,000 people are suffering from malaria, which causes swelling of certain tissues; about 20,000,000 are suffering from blindness, and 120,000,000 are suffering from scistosomiasis, which attacks the liver and intestines. Hookworm, which could largely be eliminated with a proper diet, is afflicting 500,000,000 people in the world today.

All of the above troubles could be eliminated if the churches would make it their business. I believe in the United Nations and all the work that is being done for world peace, but none of it will amount to much until we offer a fair standard of living for all people of the world.

They Say

SPOKANE, Wash.—President Truman: "The present Congress don't believe in the west. They don't think anything ought to be done for the west. The 80th Congress is the worst in the nation's history."

WASHINGTON—Rep. Myers (D) Pa.: "Harry Truman had the intestinal fortitude to recommend the draft bill. Let us have the intestinal fortitude to pass it and not require that president to 'push the button' about a month before election."

NEW YORK—Jamal El Husseini, spokesman for the Palestine Arabs: "Under the UN month-long truce the Jews are the gainers and the Arabs are the losers. There should be a plebiscite where citizens—irrespective of race or religion—will express their desire for a future government."

WASHINGTON—Secretary Marshall: "The U. S. favors a united Germany but has consistently stressed that political unity must proceed from economic unity and that both must be based on recognition of individual liberties."

A locomotive gives forth four separate puffs for every revolution of its driving wheel. The cause of these is the rapid sending out of waste steam from the smokestack. A locomotive with average sized wheel and going about 60 miles an hour gives out about 800 puffs a minute but if there are more than 18 puffs a second, the human ear cannot distinguish them.

WINNING CANDIDATE. **DORSEY CITY, Kans.**—(INS)—John B. Martin thinks he holds something of a record for having won election to public office. He just has started his 21st consecutive term as Ford county assessor.

Green Pastures Theme Of Tour By Conservation Group

Visits Being Made To Outstanding
Farms In State By Conserva-
tion Committees

Agriculture Conservation Com-
mittees of Pennsylvania are mak-
ing an education tour of some of
the state's best pastures in prepa-
ration for a state-wide Green Pas-
tures contest, now being launched by
the Pennsylvania Production and
Marketing committee. The
purpose of the contest is to arouse
interest in the establishment of
permanent pastures for the con-
servation of soil and the produc-
tion of low cost forage for the
dairy herds of the state.
New pasture seeding will be
made the subject of observation
at the farms of H. E. Harshbarger
of McVeytown, and Russell Cun-
fer, of Leighton, where demon-
strations were staged in the past eight
months by the P.M.C. Both Harsh-
barger and Cunfer are veterans
taking GI "on-the-farm" training.
The conference tour started
Thursday at the U. S. Department
of Agriculture Pasture Research
Laboratory, and the Pennsylvania
Agriculture Experiment Station at
State College by one group headed
by Clyde A. Zehner, chairman of

the P.M.C. The second group as-
sembled at the Milk Processing
Plant of the Lehigh Valley Co-
operative Farmers at Allentown
this morning, and was led by John
A. Smith, secretary of the P.M.C.
Both groups will meet in the audi-
torium of Bucknell university this
evening for a general conference
on pasture improvement. They will
remain there overnight. Other
pasture will be visited Friday,
and a large line-producing plant
will also be seen at Winfield,
Union county.

All the members of the Law-
rence County Pennsylvania Pro-
duction and Marketing committee
are attending the conference-tour;
they are Dorris L. Fulkman, chair-
man, W. Carl Hilleman, and Frank
Forbes. Community committee
members attending the conference are
Wm. Rotgaber, Fred Lusk, and
George Young from Wilmington
and Hickory townships; Fred Mar-
tin, Dominick Devite, and Albert
C. Watt of Mahoning-Neshannock
Twp.; Walter Hopper and W. J.
McKee of North Beaver-Union
Twp.; Paul McClenahan of Pul-
aski Twp.; Fred Holman of Plain-
grove Twp.; Clair Steffler of Perry
Twp.; Francis Reno of Shenango
Twp.; and Chester Hogue and Nor-
man Houk of Slippery Rock Twp.

Community Health Activities Seen Key To Prosperity

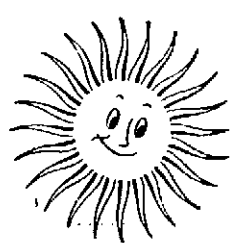

HARRISBURG, June 11.—(NS)
—Healthy community activities are
regarded today by the state plan-
ning board as the key to the future
prosperity of the United States.
Local governments no longer can
trust to federal aid for their well-
fare due to the heavy wartime debt
shouldered by the government at
Washington, the board explained.
"This is a healthy change if the
challenge is accepted," it declared.
"The power of our country stems
today from the enterprise, the am-
bition, and the ideals of the tens
of thousands of American commu-
nities."
The need for community self-
sufficiency was particularly great
in Pennsylvania, according to the
board.
"The future of Pennsylvania will
be determined by the action of its
communities over the next half
dozen years," it predicted.
"If America is to go on from
here to realize all the possibilities
of the leisure, the plenty and the
culture and arts which mark a
great civilization, it can only be
done through the communities
which make up the grand total of
our national life."
Community action in Pennsylv-

vania to increase opportunities for
better living, for increased earning
power and for healthy recreation
was never more urgently needed
than at the present hour.

Feast Of Weeks To Be Observed

Local Synagogues Plan Services
This Coming Week End For
Shovuos Holiday

Shovuos or Feast of Weeks begins at sundown Saturday, June 12, and for Reform and Palestine Jews concludes at sundown Sunday, June 13. Orthodox and Conservative Jews observe two days; their observance ending at sundown Monday evening, June 14. The Hebrew date is the 6th of Sivan 5708.

The festival is one of the oldest in the Hebrew calendar, and commemorates the harvest season in Palestine. It is called the Feast of Weeks because it completes seven weeks from the day when the measure of new barley was taken to the temple in Jerusalem. On the 50th day the early wheat harvest is celebrated.

Historically this day commemorates the giving of the Ten Commandments to the children of Israel on Mt. Sinai. It proclaims for all men and all ages that ignorance, oppression, superstition and bigotry are crimes not only against humanity but against God's law of justice, truth and mercy.

On this day beautiful confirmation service are held in temples all over America. The children pledge themselves to uphold their religious heritage. The rabbi then gives them his blessings with the charge to so order their lives that they will be pleasing in the sight of God and in the sight of man.

In these troubled times this festival has deep meaning to all thinking persons. It is a clarion call to duty, it calls us to labor for all righteous causes, and to help bring about that day when the love and reverence for God will cover the earth, as the waters cover the sea.

At Temple Israel Shovuos services and confirmation exercises will begin Sunday, June 13, at 1 p. m. The following children will be confirmed, with Dr. Ivan J. Gruen in charge of services:

Miriam E. Blau, daughter of Mr. and Mrs. Mont Blau; Mary Ann Fisher, daughter of Mr. and Mrs. Edward Fisher; Ina Gerson, daughter of Mr. and Mrs. Jack Gerson; Philip M. Greenberg, son of Mr. and Mrs. Joseph Greenberg; Wilda Ann Pitnoff, daughter of Mr. and Mrs. Harry S. Pitnoff; Edward Lee Rizika, son of Mr. and Mrs. Morris Rizika; and Carol Joye Shenkan, daughter of Mr. and Mrs. Alvin Shenkan.

At Tifereth Israel synagogue services start on June 12 at sundown, and will also be held on June 13 at sundown.

Retired Minister, Will Marry Former Sunday School Pupil

PITTSBURGH, June 11.—(INS)—An 82-year-old retired Baptist minister and a 35-year-old widow who was his Sunday school pupil 45 years ago will be married in Pittsburgh Saturday.

The Rev. Thomas McDowell had not entered the ministry 45 years ago when he taught the Sunday school class at Allentown, Pa. Mrs. Stella Valentine was in the class.

McDowell entered the ministry and for the seven years before he retired in 1947 he was dean of Trinity Bible college at St. Petersburg, Fla.

Started Corresponding
Eighteen months ago, Mrs. Valentine sent McDowell a Christmas card. A thriving correspondence resulted and McDowell came to Pittsburgh last August to see Mrs. Valentine for the first time in 35 years.

"She looked just as young as ever," McDowell said.

The couple will live in Pittsburgh after the wedding and a brief trip. Mrs. Valentine has two married daughters.

Teacher Shortage Still Prevalent In Pennsylvania

HARRISBURG, June 11.—(INS)—Semi-qualified instructors will have to be employed for at least another five years to help meet the teacher shortage in Pennsylvania, it was reported today by the Department of Public Instruction.

Approximately 3000 vacancies must be filled before the beginning of the 1948-49 school year in September, the department said. They include 2000 "temporary"

posts held by the emergency certificated teachers most of whom have had only a smattering of college training. The state's teaching population exceeds \$1,000.

Emergency certificates will not be renewed before August 1 and all applications will be screened to provide the best qualified teachers, Klonower said. Veterans will be

given priority consideration, he added. Spirit lake in northern Idaho has a bottom of solid stone.

The event also feted Miss Rose Trimble and Philip Sacco, and Miss Ann Dadejko and Matthew Severa, prospective brides and grooms.

Mrs. Gargasz, Mrs. Penwell, Mrs. Jones, Miss Trimble, Miss Dadejko and Mr. Walters are employees or were formerly employed by the A. & P. company.

Places were arranged for 75 employees and guests at tables decorated with a variety of summer flowers. Each place was marked

with a favor in the form of a miniature picture hat of a pastel hue. The bride table was centered with a three-tiered wedding cake with silver ribbon streamers marking the places.

After the wedding cake was cut by the brides and grooms, music and dancing were enjoyed. Acts of magic by Professor Walter Berich of New Wilmington were also greatly enjoyed by the group.

The brides and brides-elect were all showered with beautiful gifts. Mr. and Mrs. Wilbur Parshall were special guests. Mr. Parshall is manager of the Ellwood City A. & P. store.

Feast Of Weeks To Be Observed

Local Synagogues Plan Services
This Coming Week End For
Shavuot Holiday

Shavuot or Feast of Weeks begins at sundown Saturday, June 12, and for Reform and Palestine Jews concludes at sundown Sunday, June 13. Orthodox and Conservative Jews observe two days; their observance ending at sundown Monday evening, June 14. The Hebrew date is the 6th of Sivan 5708.

The festival is one of the oldest in the Hebrew calendar and commemorates the harvest season in Palestine. It is called the Feast of Weeks because it completes seven weeks from the day when the measure of new barley was taken to the temple in Jerusalem. On the 50th day the early wheat harvest is celebrated.

Historically this day commemorates the giving of the Ten Commandments to the children of Israel on Mt. Sinai. It proclaims for all men and all ages that ignorance, oppression, superstition and bigotry are crimes not only against humanity but against God's law of justice, truth and mercy.

On this day beautiful confirmation services are held in temples all over America. The children pledge themselves to uphold their religious heritage. The rabbi then gives them his blessings with the charge to so order their lives that they will be pleasing in the sight of God and in the sight of man.

In these troubled times this festival has deep meaning to all thinking persons. It is a clarion call to duty, it calls us to labor for all righteous causes, and to help bring about that day when the love and reverence for God will cover the earth, as the waters cover the sea.

At Temple Israel Shavuot services and confirmation exercises will begin Sunday, June 13, at 1 p. m. The following children will be confirmed, with Dr. Iwan J. Gruen in charge of services:

Miriam E. Blau, daughter of Mr. and Mrs. Mont Blau; Mary Ann Fisher, daughter of Mr. and Mrs. Edward Fisher; Ina Gerson, daughter of Mr. and Mrs. Jack Gerson; Philip M. Greenberg, son of Mr. and Mrs. Joseph Greenberg; Wilda Ann Pitnoff, daughter of Mr. and Mrs. Harry S. Pitnoff; Edward Lee Rizika, son of Mr. and Mrs. Morris Rizika; and Carol Joye Shenkan, daughter of Mr. and Mrs. Alvin Shenkan.

At Tifereth Israel synagogue services start on June 12 at sundown, and will also be held on June 13 at sundown.

Retired Minister, Will Marry Former Sunday School Pupil

PITTSBURGH, June 11.—(INS)—An 82-year-old retired Baptist minister and a 65-year-old widow who was his Sunday school pupil 45 years ago will be married in Pittsburgh Saturday.

The Rev. Thomas McDowell had not entered the ministry 45 years ago when he taught the Sunday school class at Allentown, Pa. Mrs. Stella Valentine was in the class.

McDowell entered the ministry and for the seven years before he retired in 1947 he was dean of Trinity Bible college at St. Petersburg, Fla.

Started Corresponding
Eighteen months ago, Mrs. Valentine sent McDowell a Christmas card. A thriving correspondence resulted and McDowell came to Pittsburgh last August to see Mrs. Valentine for the first time in 38 years.

"She looked just as young as ever," McDowell said. The couple will live in Pittsburgh after the wedding and a brief trip. Mrs. Valentine has two married daughters.

Teacher Shortage Still Prevalent In Pennsylvania

HARRISBURG, June 11.—(INS)—Semi-qualified instructors will have to be employed for at least another five years to help meet the teacher shortage in Pennsylvania, it was reported today by the Department of Public Instruction.

Approximately 3000 vacancies must be filled before the beginning of the 1948-49 school year in September, the department said. They include 2000 "temporary"

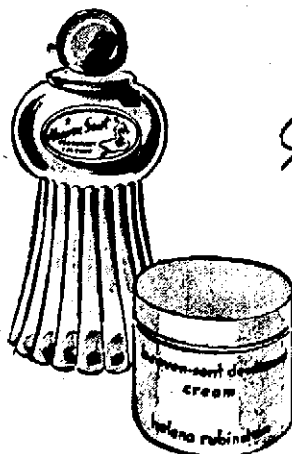

posts held by the emergency certificated teachers most of whom have had only a smattering of college training. The state's teaching population exceeds 61,000.

Emergency certificates will not be renewed before August 1 and all applications will be screened to provide the best qualified teachers, Klonower said. Veterans will be given priority consideration, he added.

3 HITS, 3 ERRORS

LISBON.—(INS)—Four unlucky
people. Sixty year old Jaime de
Souza Rangel ran his car into a
railway worker, Alberto Serra. He
lifted the stricken man into the
car to take him to the hospital. On
his way there, the nervous Rangel
hit Maria Ferreira, a servant. He
placed her beside the other injured
person and proceeded to the hos-
pital. Then he hit Jamie Rodrigues,
a sailor, and fractured his leg. The
fourth unlucky person was Jaime
de Souza Rangel. He was put in
jail.

PILGRIMAGE TO FATIMA
COVA DA IRIA, Portugal.—
(INS)—A group of 20 Cubans is ex-
pected to make a pilgrimage to the
Fatima shrine here in the beginning
of the month of June. They will
come by plane.

HANDLE SPRAYS, DUSTS CAREFULLY

Like matches and gasoline,
sprays and dusts are useful, essen-
tial and safe if intelligently han-
dled, but must be treated with the
same respect. Used properly they
prevent agricultural losses, but
carelessly handled they can cause
disability or death of hu-
mans and livestock.

Five rules for the safe handling
of insecticides and fungicides are
here given:
Store spraying and dusting ma-
terials in a closed metal container;
clearly identified and labeled;
avoid storage of these materials in

or near kitchen food stocks; use a
respirator when spraying or dust-
ing if you find the material blow-
ing back in your face; keep the
body well covered, do not spray
with legs bare; burn empty bags
which contained spraying ma-
terials, and avoid exposure to fumes
when burning.

Chemical laboratories are now
turning out new specialized syn-
thetics and organics. DDT is a
well-known example. The 2-4-D
type of hormone weed killer is an-
other. Consequently additional safety
rules are needed. The labels on
these new chemicals give specific
precautionary information. Note
the warnings and instructions, and
follow them.

Around HollywoodBy RUTH BRIGHAM
(International News Service Staff Correspondent)

HOLLYWOOD, June 11.—(INS)—Spencer Tracy is about to enter the land of MGM's immortals—with a lifetime contract. The only other recipients of the rare contracts are Clark Gable and Greer Garson. It's high time Tracy's outstanding ability was recognized...

Plans Trip Abroad
Like Lana Turner, Vera Ralston will go to Europe with several trunks of clothes—but unlike Lana, all but one small bag will contain garments earmarked for her friends over there. Vera was a Cosmopolitan European before she came to

America—and will receive a warm welcome in European capitals, not only for the gifts she brings, but for her own self. She's a native Czech. The actress has been a busy girl over here, with "The Flame," "I, Jane Doe" and "Drums Along the Amazon" for Republic.

Tough Jack Says
Jack Carson says you don't know how it is—this business of getting laughs, and getting them in the right places. The screen and radio comic says every audience is dif-ferent, but the picture audience is easy.
To wit:
"In pictures, it's simple. If the audience is laughing and loses the next line, the script writer has seen to it that it isn't funny... but the live audience is difficult. If a gag misses and no laughs, covering up is awkward. But a smart comedian can make capital out of the miss."**Beatrice Gets Break**
Beatrice Pearson, feminine star of "Tucker's People," has a 10-

year contract with Bob Roberts that calls for one film a year—three to be made for Enterprise. Bee, hailed as a screen find, was seen on the Broadway stage in "Junior Miss," "Voice of the Turtle" and "Mermaids Singing."

Here And There
Capsule comments:
Jack Paar has had his option picked up by RKO for the third consecutive time...
Helmut Dantine's mother would like to remain and see the expected Dantine heir, but she feels the call

to Vinna, and will return home in July...

Humphrey Bogart and Edward G. Robinson did such a good co-starring job in "Key Largo" plans are underway for a return engagement of the two, with the story undecided as yet.

Installation of modern street lighting reduces fatal traffic accidents after dark by more than 50 per cent, according to the Street and Traffic Safety Lighting Bureau of Cleveland, O.

**Orchardists Plan
Harrisburg Session**HARRISBURG, June 11.—(INS)—Nearly 300 orchardists from the nation's leading apple-growing states will meet at Harrisburg June 17 for a three-day annual convention of the National Apple Institute.
Business sessions of the organization will be devoted to discussions of the market outlook for

apples and anticipated consumer demand.

The institute will announce its official estimate of the 1948 crop following receipt of growers' reports. Preliminary reports indicate this year's crop will be considerably below that of 1947.

Because food prices declined more sharply in price than other items in the 1930-39 period, the proportion of American consumption expenditure used for food declined.

Cost Of Living Shows Increase At Children's Home

Fact Is Developed At Business Meeting At Ruth M. Smith Children's Home

Along with everything else, the high cost of living has had its effect upon children's homes.

This fact was brought out Thursday in Sheffield, Pa., when a business meeting was held at the Ruth M. Smith Children's home. The home is operated by the women of the Women's Society of Christian Service of the Erie conference, Methodist church.

Mrs. Abbie Hawkey of Madison, O., formerly of Tidouite, Pa., president of the WSCS stressed the rising costs of everything and pleaded that more money be raised in the Erie conference for the support of the home.

At present there are 49 children cared for in the home. Three

more will be added in a few days. The struggle to make ends meet at the home are increasingly sharp and the need for more support is drastic.

Wholly upon faith, the women have ordered a \$500 deep freeze unit for the home which will be used to store foodstuffs for the winter. The women are sure contributions will come in to pay for the unit.

Women's groups over the conference are aiding in various ways. The women of the Grace church of Warren are fitting out ten of the youngsters with shoes. Other units could do similar things it is believed.

A basket picnic featured the day's schedule at the meeting in Sheffield on Thursday. From New Castle, Mrs. J. P. Rentz attended.

The annual election will take place September 29-30 in Sharon. A nominating committee consist-

ing of Miss Minnie Armstrong, chairman, Mrs. A. W. Miller of Jamestown, N. Y., and Mrs. I. G. Hyer of Clarion will present a list of candidates to the annual meeting.

HOLLYWOOD, June 11.—(INS)—Spencer Tracy is about to enter the land of MGM's immortals—with a lifetime contract. The only other recipients of the rare contracts are Clark Gable and Greer Garson. It's high time Tracy's outstanding ability was recognized . . .

Plans Trip Abroad
Like Lana Turner, Vera Ralston will go to Europe with several trunks of clothes—but unlike Lana, all but one small bag will contain garments earmarked for her friends over there. Vera was a Cosmopolitan European before she came to

America—and will receive a warm welcome in European capitals, not only for the gifts she brings, but for her own self. She's a native Czech. The actress has been a busy girl over here, with "The Flame," "I, Jane Doe" and "Drums Along the Amazon" for Republic.

Tough Jack Says
Jack Carson says you don't know how it is—this business of getting laughs, and getting them in the right places. The screen and radio comic says every audience is dif-

ferent, but the picture audience is easy. To wit: "In pictures, it's simple. If the audience is laughing and loses the next line, the script writer has seen to it that it isn't funny . . . but the live audience is difficult. If a gag misses and no laughs, covering up is awkward. But a smart comedian can make capital out of the miss."

Beatrice Gets Break
Beatrice Peaton, feminine star of "Tucker's People," has a 10-

year contract with Bob Roberts that calls for one film a year—three to be made for Enterprise. Bee, hailed as a screen find, was seen on the Broadway stage in "Junior Miss," "Voice of the Turtle" and "Mermaids Singing."

Here And There
Capsule comments:
Jack Paar has had his option picked up by RKO for the third consecutive time.
Helmut Dantine's mother would like to remain and see the expected Dantine heir, but she feels the call

to Vinna, and will return home in July.

Humphrey Bogart and Edward G. Robinson did such a good co-starring job in "Key Largo" plans are underway for a return engagement of the two, with the story undecided as yet.

Installation of modern street lighting reduces fatal traffic accidents after dark by more than 50 per cent, according to the Street and Traffic Safety Lighting Bureau of Cleveland, O.

**Orchardists Plan
Harrisburg Session**

HARRISBURG, June 11.—(INS)—Nearly 300 orchardists from the nation's leading apple-growing states will meet at Harrisburg June 17 for a three-day annual convention of the National Apple Institute.

Business sessions of the organization will be devoted to discussions of the market outlook for

apples and anticipated consumer demand.

The institute will announce its official estimate of the 1948 crop following receipt of growers' reports. Preliminary reports indicate this year's crop will be considerably below that of 1947.

Because food prices declined more sharply in price than other items in the 1930-33 period, the proportion of American consumption expenditure used for food declined.

Sales Of Farms In Pennsylvania Slowing Down

Good Farms In State Selling At Highest Prices Ever Known, Survey Shows

HARRISBURG, June 11.—(INS)—The state Agriculture department today reported that sales of Pennsylvania farms slowed during the first quarter of 1948.

Agriculture Secretary Miles Horst said good farms in the commonwealth are selling at the highest prices ever known. Average prices are 77 per cent above the 1935-39 pre-war level and 10 per cent higher than the peak reached in 1920 following World War I.

Pointing out that farm mortgages have been on the upswing since 1945, Horst said that the total farm mortgage debt in Pennsylvania as of January 1 was \$124,632,000—an increase during the year of eight per cent. The overall debt reflects farm sales at higher prices and with heavier mortgages, he said.

Not Out of Line

Current indebtedness is \$6,500,000 more than that of the lowest point of record, \$118,106,000 in 1918, Horst said. The peak mortgage debt was reached in 1932 when it totaled \$184,498,000, he added.

The farm debt situation at present is not out of line, he declared. "It appears that heavy down payments are being made and debts are being reduced as rapidly as possible."

He advised prospective farm purchasers with limited capital to invest their money in livestock and equipment "and run a rented farm rather than become heavily involved at present prices."

Local banks and individuals held the bulk—\$104,730,000—of Pennsylvania farm mortgages, he said. The remainder is held by Federal Land Banks, \$11,319,000; Federal Farm Mortgage Corp., \$1,596,000; Farmers Home Administration, \$3,613,000; and life insurance companies, \$3,364,000.

Arrange Financing For Eastern Pike

HARRISBURG, June 11.—(INS)—Arrangements for financing the eastern extension of the Pennsylvania Turnpike were being ironed out by the Turnpike commission and four financing firms.

Commission Chairman T. J. Evans announced the agency has entered into an agreement with Drexel and Co., B. J. Van Ingen and Co., Blyth and Co., and the First Boston Corp., to finance the 100-mile extension from Middletown to King of Prussia, near Philadelphia.

Although the commission has not estimated the cost of the extension, private estimates place the cost at approximately \$70,000,000.

Good Taste

By FRANCINE MARKEL

HER FIRST FORMAL. "I am just sixteen and am about to get my first formal for our school prom. Mother and I can't agree on the proper type for me. She runs toward things I consider too sweet and girlish and my selections impress her as being too sophisticated. Will you advise us?"

Answer: Every young girl I know has the same difficulty. There is something about a girl's first evening dress that has a psychological effect on her. Immediately, she feels that she has grown up and must throw off the shackles of youth and attempt to look and act like a woman of twenty-five. She thinks slinky black will do the trick... something that clings to the figure. Hair slicked back or worn in an upsweep, earrings, shoes with heels so high that her gait is unsteady. So arranged, she is bound to look like a little girl playing "dress-ups" and therefore a little on the ridiculous side.

Since boys of sixteen with their fuzzy chins and pink and white complexion cannot, regardless of clothes, look like anything other than sixteen, why do girls go to all the trouble of trying to add years? For your first "formal" choose something that will accentuate your freshness of youth... something with perhaps a fitted bodice with a sweetheart neckline and a voluminous skirt of tulle or tulle or a simply-made dress of white or a pastel.

Avoid too much trimming, too much jewelry and earrings and wear your hair either loose about your shoulders or, if your face permits, drawn back with a band over your ears. Never, at your tender age, assume an upsweep.

Present your problems to Miss Markel who will promptly send personal replies to questions from readers enclosing stamped, addressed envelopes.

Field Activities In State Increase

HARRISBURG, June 11.—(INS)—The state Agriculture department reported that fair weather brought a general speed-up in field activities and plant growth on Pennsylvania farms during the past week.

The weekly federal-state crop survey revealed fruit trees spraying was in full swing to control disease and insect damage, the department said. Growers reported that fruit prospects generally are poor, although peaches show promise. Vegetables began good growth during favorable weather and the harvest of early cabbage and head lettuce has started.

Wheat and barley is ripening fast and nearly all corn planting has been completed, according to the department.

Of the record 1947 U. S. wheat crop of 1.3 billion bushels, Kansas produces more than one-fifth.

The latest to schedule an exhibition was the Jenner Fair at Jennerstown, Somerset county, from August 18-21.

The state fair season opens August 2 with the Clearfield County

Do You Have... WASHDAY BLUES?

If you dread washday, a Blackstone Automatic Washer will make it the easiest day in the week. It takes the work out of washing. All you do is put the clothes in the machine, add a little soap, set the dial for the desired washing time, from 2½ minutes to 15 minutes, from there the Blackstone Washer takes over. You can spend the rest of the time relaxing. Sounds easy — is easy. Drop in for a demonstration.

BLACKSTONE

AMERICAN WASHING MACHINE MANUFACTURER

Really WASHES!

The BLACKSTONE is an AGITATOR WASHER! It uses the same proven, efficient, gentle washing action universally approved in the wringer washer! You can be certain that your clothes will be spotlessly washed, unharmed and free of knots and tangles! It really washes clothes clean!

Really RINSES!

Only BLACKSTONE offers a scum-removing, double-action, agitated-rinse! After the tub automatically refills for rinsing, a complete change of clean water is introduced. As the agitator loosens dirt and soap scum which floats to the surface, a high velocity spray flushes this scum from the top of the tub before the water is drained out, so it cannot be redeposited in the clean clothes. It really rinses!

Really SPIN DRIES!

The BLACKSTONE tub develops such powerful centrifugal force — due to its size and speed of rotation — that most clothes are dried so efficiently they can be ironed at once! It can never twist or strain or tear the fabrics — nor break buckles or buttons! The swift, harmless centrifugal action of the BLACKSTONE really spin-dries!

Cost Of Living Shows Increase At Children's Home

Fact Is Developed At Business Meeting At Ruth M. Smith Children's Home

Along with everything else, the high cost of living has had its effect upon children's homes.

This fact was brought out Thursday in Sheffield, Pa., when a business meeting was held at the Ruth M. Smith Children's home. The home is operated by the women of the Women's Society of Christian Service of the Erie conference, Methodist church.

Mrs. Abbie Hawkey of Madison, O., formerly of Titusville, Pa., president of the WSCS stressed the rising costs of everything and pleaded that more money be raised in the Erie conference for the support of the home.

At present there are 48 children cared for in the home. Three

more will be added in a few days. The struggle to make ends meet at the home are increasingly sharp and the need for more support is drastic.

Wholly upon faith, the women have ordered a \$500 deep freeze unit for the home which will be used to store foodstuffs for the winter. The women are sure contributions will come in to pay for the unit.

Women's groups over the conference are aiding in various ways. The women of the Grace church of Warren are fitting out ten of the youngsters with shoes. Other units could do similar things it is believed.

A basket picnic featured the day's schedule at the meeting in Sheffield on Thursday. From New Castle, Mrs. J. F. Rantz attended. The annual election will take place September 28-30 in Sharon. A nominating committee consists

of Miss Minnie Armstrong, chairman, Mrs. A. W. Miller of Jamestown, N. Y., and Mrs. L. G. Hyar of Clarion will present a list of candidates to the annual meeting.

Rocket Planes Fly Faster Than Speed Of Sound

WASHINGTON, June 11.—(INS)—Air Secretary Symington officially announced that an air force rocket plane, the X-5, has been flown faster than the speed of sound "many times" since tests began last October.

Symington called the super-speed tests "outstanding" as air experts agreed that the rocket-plane flights will be the greatest aviation achievement "since the Wright brothers flew at Kitty Hawk."

The flight tests, which Symington's announcement indicated were made at speeds well in excess of the sonic level figure of 750 miles per hour, were conducted at the Muroc air force base in California.

The test pilot was Capt. Charles E. Yeager, 25, a native of Myra, W. Va., a World War II combat ace who shot down 13 German planes during 15 months' service with the air force in Europe.

Yeager, married and the father of two children, wears the Silver Star, the Distinguished Flying Cross, the Bronze Star, and the Air Medal.

The daring test pilot flew alone in his race across the sonic barrier heretofore barred to men. The X-5-1 can carry only one man.

No Unseasonal Polio Increase Seen In State

HARRISBURG, June 11.—(INS)—State health department officials today reported an unseasonal increase in infantile paralysis cases in certain sections of the nation has not been reflected in Pennsylvania.

Twenty cases of poliomyelitis have been reported to the department this year compared to 18 during a similar period a year ago.

"The number of cases reported so far is practically normal," said Deputy Health Secretary J. Moore Campbell.

Campbell and Epidemiologist William D. Schrack, Jr., refused to forecast the incidence of the unpredictable disease this year in Pennsylvania.

"We won't know what the state is up against until we see the figures after mid-July, when the polio season really gets underway," Campbell explained.

The state can expect to have between 200 and 400 victims of the crippling disease this year, Schrack said, "without becoming alarmed." Last years total was 548 victims.

Pointing out that physicians are learning to recognize the crippling malady more easily, he explained that the number of victims in Pennsylvania has not fallen below 300 a year since 1943.

RICH IN VITAMIN GOLD

IRUN, Spain.—(INS)—Customs agents became suspicious of a Portuguese passenger on the Hispano-French express when he libbed but did not eat a huge sandwich he carried while his luggage was being inspected. Investigation disclosed the sandwich had a rich but not very appetizing "filler." It was packed with gold pieces.

Sales Of Farms In Pennsylvania Slowing Down

Good Farms In State Selling At Highest Prices Ever Known, Survey Shows

HARRISBURG, June 11.—(INS)—The state Agriculture department today reported that sales of Pennsylvania farms slowed during the first quarter of 1948.

Agriculture Secretary Miles Horst said good farms in the commonwealth are selling at the highest prices ever known. Average prices are 37 per cent above the 1935-39 pre-war level and 10 per cent higher than the peak reached in 1920 following World War I.

Pointing out that farm mortgages have been on the upswing since 1945, Horst said that the total farm mortgage debt in Pennsylvania as of January 1 was \$124,622,000—an increase during the year of eight per cent. The overall debt reflects farm sales at higher prices and with heavier mortgages, he said.

Not Out of Line

Current indebtedness is \$6,500,000 more than that of the lowest point of record, \$118,106,000 in 1918, Horst said. The peak mortgage debt was reached in 1932 when it totaled \$164,498,000, he added.

The farm debt situation at present is not out of line, he declared. "It appears that heavy down payments are being made and debts are being reduced as rapidly as possible."

He advised prospective farm purchasers with limited capital to invest their money in livestock and equipment "and run a rented farm rather than become heavily involved at present prices."

Local banks and individuals held the bulk—\$104,730,000—of Pennsylvania farm mortgages, he said. The remainder is held by Federal Land Banks, \$11,319,000; Federal Farm Mortgage Corp., \$1,598,000; Farmers Home Administration, \$3,813,000; and life insurance companies, \$3,364,000.

Good Taste

By FRANCINE MARKEL

HER FIRST FORMAL

"I am just sixteen and am about to get my first formal for our school prom. Mother and I can't agree on the proper type for me. She runs toward things I consider too sweet and girlish and my selections impress her as being too sophisticated. Will you advise us?"

Answer: Every young girl I know has the same difficulty. There is something about a girl's first evening dress that has a psychological effect on her. Immediately, she feels that she has grown up and must throw off the shackles of youth and attempt to look and act like a woman of twenty-five. She thinks slinky black will do the trick... something that clings to the figure. Hair slicked back or worn in an upswing, earrings, shoes with heels so high that her gait is unsteady. So arranged, she is bound to look like a little girl playing "dress-ups" and therefore a little on the ridiculous side.

Since boys and pink and white complexioned cannot, regardless of clothes, look like anything other than sixteen, why do girls go to all the trouble of trying to add years? For your first "formal" choose something that will accentuate your freshness of youth... something with perhaps a fitted bodice with a sweetheart neckline and a voluminous skirt of tulle or tulle.

Avoid too much trimming, too much jewelry and earrings and wear your hair either loose about your shoulders or, if your face permits, drawn back with a band over your ears. Never, at your tender age, assume an upswing.

Present your problems to Miss Markel who will promptly send personal replies to questions from readers including stamped, addressed envelopes.

Field Activities In State Increase

HARRISBURG, June 11.—(INS)—The state Agriculture department reported that fair weather brought a general speed-up in field activities and plant growth on Pennsylvania farms during the past week.

The weekly federal-state crop survey revealed that fruit trees spraying was in full swing to control disease and insect damage, the department said. Growers reported that fruit prospects generally are poor, although peaches show promise. Vegetables began good growth during favorable weather and the harvest of early cabbage and head lettuce has started.

Wheat and barley is ripening fast and nearly all corn planting has been completed, according to the department.

Of the record 1947 U. S. wheat crop of 1.3 billion bushels, Kansas produces more than one-fifth.

Arrange Financing For Eastern Pike

HARRISBURG, June 11.—(INS)—Arrangements for financing the eastern extension of the Pennsylvania Turnpike were being ironed out by the Turnpike commission and four financing firms.

Commission Chairman T. J. Evans announced the agency has entered into an agreement with Drexel and Co., B. J. Van Ingen and Co., Blyth and Co., and the First Boston Corp. to finance the 100-mile extension from Middletown to King of Prussia, near Philadelphia.

Although the commission has not estimated the cost of the extension, private estimates place the cost at approximately \$70,000,000.

Do You Have... WASHDAY BLUES?

If you dread washday, a Blackstone Automatic Washer will make it the easiest day in the week. It takes the work out of washing. All you do is put the clothes in the machine, add a little soap, set the dial for the desired washing time, from 2½ minutes to 15 minutes, from there the Blackstone Washer takes over. You can spend the rest of the time relaxing. Sounds easy — is easy. Drop in for a demonstration.

BLACKSTONE
PRODUCT OF AMERICA'S OLDEST WASHER MANUFACTURER

Really WASHES!

The BLACKSTONE is an AGITATOR WASHER! It uses the same proven, efficient, gentle washing action universally approved in the wringer washers! You can be certain that your clothes will be spotlessly washed, unharmed and free of knots and tangles! It really washes clothes clean!

Really RINSES!

Only BLACKSTONE offers a scrubbing, double-action, agitated flush. After the tub automatically refills for rinsing, a complete change of clean water is introduced. As the agitator loosens dirt and soap suds which float to the surface, a high velocity spray flushes this suds from the top of the tub before the water is drained out, so it cannot be redeposited in the clean clothes. It really rinses!

Really SPIN DRIES!

The BLACKSTONE tub develops such powerful centrifugal force — due to its size and speed of rotation — that most clothes are dried so efficiently they can be ironed at once! It can never twist or strain or tear the fabric — nor break buttons or buttons! The swift, harmless centrifugal action of the BLACKSTONE really spin-dries!

Bible Conference Of West Pennsylvania At Slippery Rock

Church Destroyed By Fire, Will
Hold Meetings In Quonset
Building

* Western Pennsylvania Bible Conference will meet for its 20th annual session in Slippery Rock from June 20 to June 27. The usual meeting place, the First Presbyterian church, was destroyed by fire last January. At the same time, all of the records and mailing lists were destroyed also.

New mailing lists are being built up, and the conference will go on as usual, with the meetings being held in a large Quonset auditorium owned by Sidney Snyder, in downtown Slippery Rock.

Dr. Harrison To Speak
Dr. Norman B. Harrison, internationally known Bible student and teacher, will open the conference at 2:30 o'clock on Sunday afternoon, June 20.

The 4 o'clock meeting will be in charge of a missionary, not yet been announced, and at 8:45, the young people will have a special service for youth.

The evening service will be preceded by a rousing song service, led by veteran song leader Arthur W. McKee. Mr. Leon Sullivan, one of the most popular conference and youth speakers among laymen in America, will speak at the evening meeting on the subject "Word Of Life."

The Conference session will continue through the week at 2:30 and 3:30 o'clock in the Methodist church, Monday through Friday. Saturday at 8 o'clock a youth Rally will be held in the Quonset auditorium. All Sunday services and 8 o'clock services will be held in the Quonset building also.

Later in the week Rev. William A. Mierop, president of the Bible Institute of Pennsylvania will be a speaker.

Sister Of Slain Czar Of Russia Reaches Canada

QUEBEC, Que., June 11.—(INS)—A plain little woman, wearing wrinkled tweeds, arrived in Canada from Denmark Thursday looking more like the farm wife she intends to be than the royal grand duchess she is.

This "agricultural immigrant" to Canada is Grand Duchess Olga Alexandrovna Kulikovsky, 66, the only surviving sister of murdered Czar Nicholas II of Russia.

For the second time in Zher life, she is in flight from the threat of the communists that destroyed her fortune and so many of her family.

The grand duchess came to Canada aboard the Canadian Pacific liner Empress of Canada, accompanied by her husband, Col. Nikolai Alexandrovich Kulikovsky; her two sons, their wives and two grandchildren. They will settle on a farm in Ontario, and start life over again.

Boroughs Will Build Defense Of Local Tax Plan

Convention Later This Month To
Take Up Defense Of New
State Taxing Law

HARRISBURG, June 11.—(INS)—

The Pennsylvania Boroughs association today is attempting to build a strong defense for the 1947 local tax act expected to draw heavy fire during the next session of the legislature.

The organization hopes to jump the gun on enemies of the measure in proposing possible amendments to eliminate tax duplications by adjoining communities and other abuses arousing opposition.

An effort will be made to line up other local government groups behind any recommendations, and

to consolidate lobbying in support of the enlarged local taxing powers during the general assembly session opening next January.

The groundwork of its plan will be laid when the borough officials hold their 37th annual cruise convention on the Great Lakes June 22-28.

An entire session will be devoted to discussion of tax act which grants most local governments virtually unlimited taxing power for the first time in Pennsylvania history. It was fostered by Gov. James H. Duff to relieve real estate, providing most community and school revenues, and to help communities become self-sustaining.

Discussions will embrace amusement and admission taxes, the most popular levies, wage and income

taxes, levies on mechanical devices, per capita levies and miscellaneous taxes.

Also scheduled for airing are collection methods, tax forms, notices and ordinances.

The association expects to put a finger on weaknesses in the measure which prohibits local duplication of state imposts.

In Religious And Fraternal Circles

Slippery Rock Youth Council Preaching service for Slippery Rock District Youth council will be conducted Sunday evening at 8:15 o'clock in Oak Grove U. P. church.

Boy Is Killed On Butler County Farm

BUTLER, June 11.—Curiosity cost 7-year-old Thomas Leroy Scheibel his life while visiting on the Zollar farm near his Saxonburg home on Wednesday.

While watching a farm tractor being prepared to spray fruit in an orchard, Tommy's clothing became

intangled in the power take-off shaft, which mangled him badly before it could be stopped.

The boy died an hour after the accident in the office of Dr. V. Van Weber of Saxonburg. He was the son of Mr. and Mrs. Gilbert Scheibel.

Rocket Planes Fly Faster Than Speed Of Sound

WASHINGTON, June 11.—(INS) Air Secretary Symington today announced that an air force rocket plane, the X-1, has been flown faster than the speed of sound "many times" since tests began last October.

Symington called the "super-speed" tests "outstanding" as air experts agreed that the rocket-plane flights will be the greatest aviation achievement since the Wright brothers flew at Kitty Hawk.

The flight tests, which Symington's announcement indicated were made at speeds well in excess of the sonic sea-level figure of 750 miles per hour, were conducted at the Muroc air force base in California.

The test pilot was Capt. Charles E. Yeager, 26, a native of Myra, W. Va., a World War II combat ace who shot down 13 German planes during 15 months' service with the air force in Europe.

Yeager, married and the father of two children, wears the Silver Star, the Distinguished Flying Cross, the Bronze Star, and the Air Medal.

The daring test pilot flew alone in his race across the sonic barrier hereafter barred to men. The X-1 can carry only one man.

No Unseasonal Polio Increase Seen In State

HARRISBURG, June 11.—(INS) State health department officials today reported an unseasonal increase in infantile paralysis cases in certain sections of the nation has not been reflected in Pennsylvania.

Twenty cases of poliomyelitis have been reported to the department this year compared to 18 during a similar period a year ago.

"The number of cases reported so far is practically normal," said Deputy Health Secretary J. Moore Campbell.

Campbell and Epidemiologist William D. Schrack, Jr., refused to forecast the incidence of the unpredictable disease this year in Pennsylvania.

"We won't know what the state is up against until we see the figures after mid-July, when the polio season really gets underway," Campbell explained.

The state can expect to have between 200 and 400 victims of the crippling disease this year, Schrack said, "without becoming alarmed." Last years total was 548 victims.

Pointing out that physicians are learning to recognize the crippling malady more easily, he explained that the number of victims in Pennsylvania has not fallen below 300 a year since 1943.

RICH IN VITAMIN (GOLD)
IRUN, Spain.—(INS)—Customs agents became suspicious of a Portuguese passenger on the Hispano-French express when he blabbed but did not eat a huge sandwich he carried while his luggage was being inspected. Investigation disclosed the sandwich had a rich but not very appetizing "filler." It was packed with gold pieces.

Bible Conference Of West Pennsylvania At Slippery Rock

Church Destroyed By Fire, Will
Hold Meetings In Quonset
Building

* Western Pennsylvania Bible Conference will meet for its 20th annual session in Slippery Rock from June 20 to June 27. The usual meeting place, the First Presbyterian church, was destroyed by fire last January. At the same time, all of the records and mailing lists were destroyed also.

New mailing lists are being built up, and the conference will go on as usual, with the meetings being held in a large Quonset auditorium owned by Sidney Snyder, in downtown Slippery Rock.

Dr. Harrison To Speak
Dr. Norman B. Harrison, internationally known Bible student and teacher, will open the conference at 7:30 o'clock on Sunday afternoon, June 20.

The 4 o'clock meeting will be in charge of a missionary, not yet been announced, and at 6:45, the young people will have a special service for youth.

The evening service will be preceded by a rousing song service, led by veteran song leader Arthur W. McKee. Mr. Leon Sullivan, one of the most popular conference and youth speakers among laymen in America, will speak at the evening meeting on the subject "Word Of Life."

The conference session will continue through the week at 2:30 and 3:30 o'clock in the Methodist church, Monday through Friday. Saturday at 9 o'clock a youth Rally will be held in the Quonset auditorium. All Sunday services and 8 o'clock services will be held in the Quonset building also.

Later in the week Rev. William A. Mierop, president of the Bible Institute of Pennsylvania will be a speaker.

Sister Of Slain Czar Of Russia Reaches Canada

QUEBEC, Que., June 11.—(INS)—A plain little woman, wearing wrinkled tweeds, arrived in Canada from Denmark Thursday looking more like the farm wife she intends to be than the royal grand duchess she is.

This "agricultural immigrant" to Canada is Grand Duchess Olga Alexandrovna Kulikovsky, 66, the only surviving sister of murdered Czar Nicholas II of Russia.

For the second time in Zher life, she is in flight from the threat of the communists that destroyed her fortune and so many of her family.

The grand duchess came to Canada aboard the Canadian Pacific liner Empress of Canada, accompanied by her husband, Col. Nikolai Alexandrovich Kulikovsky; her two sons, their wives and two grandchildren. They will settle on a farm in Ontario, and start life over again.

Boroughs Will Build Defense Of Local Tax Plan

Convention Later This Month To
Take Up Defense Of New
State Taxing Law

HARRISBURG, June 11.—(INS)—The Pennsylvania Boroughs association today is attempting to build a strong defense for the 1947 local tax act expected to draw heavy fire during the next session of the legislature.

The organization hopes to jump the gun on enemies of the measure in proposing possible amendments to eliminate tax duplications and other abuses arousing opposition.

An effort will be made to line up other local government groups behind any recommendations, and

to consolidate lobbying in support of the enlarged local taxing powers during the general assembly session opening next January.

The groundwork of its plan will be laid when the borough officials hold their 37th annual cruise convention on the Great Lakes June 22-26.

An entire session will be devoted to discussion of tax act which grants most local governments virtually unlimited taxing power for the first time in Pennsylvania history. It was fostered by Gov. James H. Duff to relieve real estate, providing most community and school revenues, and to help communities become self-sustaining.

Discussions will embrace assessment and admission taxes, the most popular levies, wage and income

taxes, levies on mechanical devices, per capita levies and miscellaneous taxes.

Also scheduled for airing are collection methods, tax forms, notices and ordinances.

The association expects to put a finger on weaknesses in the measure which prohibits local duplication of state imposts.

**In Religious And
Fraternal Circles**

Slippery Rock Youth Council Preaching service for Slippery Rock District Youth council will be conducted Sunday evening at 8:15 o'clock in Oak Grove U. P. church.

Boy Is Killed On Butler County Farm

BUTLER, June 11.—Curiously cost 7-year-old Thomas Leroy Scheibel his life while visiting on the Zoller farm near his Saxonburg home on Wednesday.

While watching a farm tractor being prepared to spray fruit in an orchard, Tommy's clothing became

intangled in the power take-off shaft, which mangled him badly before it could be stopped. The boy died an hour after the accident in the office of Dr. V. Van Weber of Saxonburg. He was the son of Mr. and Mrs. Gilbert Scheibel.

The Spanish Conquistador Narvaez overawed several thousand Indians in Cuba simply by appearing on his horse.

Strikers Receive No Unemployment Pay; State Law Provision

Exceptions To Law Appraised By
District Manager; Decision
May Be Contested

No unemployment pay will be given to strikers, according to state law 402(d), but there are exceptions. This information was given by George R. Gettings, manager of the New Castle branch of the Pennsylvania State Employment Service.

The three exceptions listed under this law are:

1. Any persons not participating or directly interested in the dispute responsible for the stoppage of work.
2. Any person not a member of the organization or a participant in the stoppage of work.
3. Any person who is not in the group who is connected with the factors in the stoppage of work.

Exemptions to state law 402(d) are appraised according to each union, separately, and the factors involved. These exemptions are represented by a district manager at the central office of each area.

The decision as to whether a striker, voluntary or involuntary, be given unemployment assistance is given out by the district manager.

The decision, after it has been received, may be contested by either worker or employer, and will then go to a higher authority for decision.

Chiefs-Providence Have Agreement

General Manager Mike Cannavino
Of Chiefs Seeking Outfielder
And Third Sacker

General Manager Mike Cannavino of the New Castle baseball club announced today that the Chiefs will have a working agreement with the Providence, R. I. club, and that they are sending some players that the Chiefs can use—mainly a third baseman, outfielder and another winning pitcher.

A pitcher, Frank Wagner, with the Niagara Falls, N. Y. club last year, was a winning hurler. He will help the Chiefs considerably. The acquisition of outfielder Lou Percy, who played last night, will give the Chiefs better defensive strength in the outfield. He is a good fly chaser and a reputed heavy hitter with the bat.

"You can say for me, that I will never be satisfied until New Castle has a winning ball club, and one that will hold its own in the Mid-Atlantic league. In another week the Chiefs will be giving the topnotchers a real battle chase," Cannavino stated.

The Chiefs will return here to play Oil City next Monday.

MAJOR Standings

by swamping Detroit, 10 to 0. Walter, a seven-run rally, in the fourth inning, won this wild season. Detroit produced four alleged pitchers who emulated Santa Claus by issuing a total of seven bases on balls.

Another Santa Claus in pitcher's clothing popped up in Washington last night when Frankie Biscan of the Brownies threw four straight balls to Max Goodman of the Senators with the bases full in the ninth inning. As a result, Washington won the ball game, 5 to 4.

Meyer Deals Giants

Russ Meyer, who probably is the best pitcher on the payroll of the Chicago Cubs, held the New York Giants to seven hits and beat them 4 to 4. Bobo Newsom, the Chicago pitcher, failed the New Yorkers again.

Johnny Sain, the former army pilot who now toils for the Boston Braves, had his bomb sight working perfectly as he beat the St. Louis Cardinals, 10 to 2. The Braves, who now are only half a game behind the pace-setting Cardinals, took second place from the Cards, who dropped into a tie with Pittsburgh for third place.

The Pirates, in a night game, beat Brooklyn 4 to 1 when Ernie Bonham, formerly of the New York Yankees, held the Dodgers to two hits.

Frank Grillie scored in all but two frames last night to crush South Hills, 13-7. The biggest inning was the third when seven runs scampered home.

Richards, Knight and Pyle handled the Franking and allowed but few blows. Flinnall of South Hills had a circuit smother. Jay Thomas led the Frank stickers with three hits, one a double, and plattered a base.

Strangely enough, Rocky holds the same viewpoint. That punch popped him to the canvas but he bounced up without a count. Asked why, Rocky admitted he didn't know what he was doing. Rocky was doomed to lose the fight no matter how he fought. He made doubly sure to lose it when he elected to try to box with an who has forgotten more about boxing than he will ever learn.

Handlers Inept

Rocky's handlers—and an inept lot they were—kept shouting at him with the left Rocky". Rocky dutifully followed instructions. But every time he jabbed with the left, he dropped his right. And every time that right dropped Zale nailed him with a hook.

Zale said he felt himself for the first time since before the war. Timing was perfect, his boxing was neat and his hitting terrific.

He opened hostilities by shooting a left jab at Rocky's head.

body. Short damaging punches that hurt. Rocky managed to get in a hard left and right on his own account and then Tony came through with a left hook to the jaw that dropped Rocky.

He bounced up immediately only to run into a shower of right and left hooks to body and head that had Rocky weaving on the ropes at the bell.

The second round had hardly begun before Zale had Rocky staggering again and once more it was those same deadly short hooks that caused all the damage. He was taking a pounding on the ropes when suddenly he rallied and drove Tony back with a fusillade

of fists and fists. Many of these punches were wild and Tony either rode with or blocked others. But enough landed to make the crowd believe Rocky was going to turn the tide. They were still slugging after the bell.

The third round was the pay-off. A left hook to the jaw dropped Rocky again and he took a five count. He was groggy when he arose and then came that beautiful left to the jaw and Rocky went down and out on his back while the timekeeper tolled a dirge to his little hopes.

However, he has \$120,000 to salve his wounds today and Zale has \$80,000 with the promise of

DOWN GAMES

NEW WALLLEE, June 11.—Tying the game in the sixth and sending the winning run home in the seventh, the Edward M. Lippitts of the New Walllee club snipped the New Galilee club last night in a County League play-off, 3-2.

Tommy Beattice went all the way for the Edward M. Lippitts, dropping back to a 19-36.

Shed, the flash from White Sulphur Springs, W. Va., matched Wortham's 33 on the way out, but slipped in par. 36, by taking bogie on the 12th and 16th on the way out.

Rugers shot a consistent 34-35.

Only three others cracked par 36.

The long-pacing Wampunpuncy Club is at home against Edgely's Tigers. St. Lucy invades wood to play the V. F. W. Hanson Bronze shows at Hillsdale. Bessemer goes to New Galilee and the Ellwood Moose appear Koppel.

There will be five more four-batter. Bobby Clerici was the losing hurler.

CHURCH SOFTBALL RESULTS

There were Bobby Locke, Tom Sisk, Alvin Gray, Ted Penna of Cincinnati and Theodore Thodes, Los Angeles Negro pro. Fifteen landed in the 71 brick to break even on par. They hit 100 in open competition. The Mangum, who's the year's biggest money winner so far, from National amateur champion. M.

an American Legion Junior League game played at Deshon Wednesday evening, the Wesley team trounced the West 12-3. The game was played at the Wesley field by a score of 6 to 4. Alexander, the winning pitcher, held the Presbyterians hitless until the fifth inning. He allowed only two hits in all. Al Kelle was the losing pitcher. Dale Kegariste featured at the bat for Wesley with two triples. Wesley's win last night puts them in

loop race for the top honors. It was the 12th straight defeat for the Chiefs and the 28th of the year against four wins. Uniontown has won 21 and lost but 11.

The Chiefs uncovered a brilliant young left-fielder, Lou Percy of New Kensington, who patrolled his pasture like a seasoned veteran, making five catches look easy. Percy was formerly with Auburn in the New York State league and has been bought by General Manager Mike Cannavino.

Hogue Walks 11

Impotency at the bat caused the downfall of the Chiefs again, getting but three hits off Hogue and failed to capitalize on 11 free tickets to first base. The New Castle team had 10 men stranded on the base paths.

Chiefs Take Lead

New Castle took the lead in the first inning, scoring a run as Meyers drew a charity trip to first, advanced to second on an infield out by Muldoon and took third on a wild pitch by Hogue. He scored when Burns singled to right after Mahoney had walked. The side was retired on a fast double play, Hogue to Williams to Drake.

It was a 1 to 0 game until the fifth when the Barons tallied. McKee singled to start the inning but was thrown out at second, Bart to Fitt, as Drake took first. Runcie sent a long double to right-center and Drake raced home. The next two were out.

Hogue Walks Run In

Frankie Pytlak's boys took the lead at 2 to 1 in the seventh. Buccioni flied out, Meyers was thrown out by the pitcher, Muldoon was safe when Williams bobbled his grounder, three straight walks forced Muldoon over the plate. New Castle had but one hit off Hogue for the last seven innings. Horner, the catcher, had two of the three hits. Williams, who had pounded the ball all over the orchard the previous night, went hitless.

Go To Vandergriff

The New Castle team left this afternoon for Vandergriff to open a three-game stand. The Chiefs return to Flaherty field next Monday.

Strikers Receive No Unemployment Pay; State Law Provision

Exceptions To Law Appraised By
District Manager; Decision
May Be Contested

No unemployment pay will be given to strikers, according to state law 402(d), but there are exceptions. This information was given by George R. Gettings, manager of the New Castle branch of the Pennsylvania State Employment Service.

The three exceptions listed under this law are:

1. Any persons not participating or directly interested in the dispute responsible for the stoppage of work.
 2. Any person not a member of the organization or a participant in the stoppage of work.
 3. Any person who is not in the group who is connected with the factors in the stoppage of work.

Exemptions to state law 402(d) are appraised according to each union, separately, and the factors involved. These exemptions are represented by a district manager at the central office of each area.

The decision as to whether a striker, voluntary or involuntary, he given unemployment assistance is given not by the district manager.

The decision, after it has been received, may be contested by either worker or employer, and will then go to a higher authority for decision.

Chiefs-Providence Have Agreement

General Manager Mike Cannavino
Of Chiefs Seeking Outfielder
And Third Sacker

General Manager Mike Cannavino of the New Castle baseball club announced today that the Chiefs will have a working agreement with the Providence, R. I., club, and that they are sending some players that the Chiefs can use—mainly a third baseman, outfielder and another winning pitcher.

A pitcher, Frank Wagner, with the Niagara Falls, N. Y., club last year, was a winning hurler. He will help the Chiefs considerably. The acquisition of outfielder Lou Percy, who played last night, will give the Chiefs better defensive strength in the outfield. He is a good fly chaser and a reputed heavy hitter with the willow.

"You can say for me, that I will never be satisfied until New Castle has a winning ball club, and one that will hold its own in the Mid-Atlantic league. In another week the Chiefs will be giving the topnotchers a real battle chase," Cannavino stated.

The Chiefs will return here to play Oil City next Monday.
